

Cara Mempublikasikan Web Menggunakan Github

Praktikum Pemrograman Web
Universitas Mercubuana Yogyakarta
jati@mercubuana-yogya.ac.id

1. Pastikan sudah memiliki akun [Github](#)
2. Buat repository baru dengan cara klik new repository

3. Tulis nama repository sesuai dengan format tugas, misal **portfolio12345**. Lalu set ke **public**, klik tanda centang pada **Add a README file**, dan terakhir klik tombol **Create Repository**.

Create a new repository

A repository contains all project files, including the revision history. Already have a project repository elsewhere? [Import a repository](#).

Owner * 74t1 / Repository name * nim12345 ✓

Great repository names are short and memorable. Need inspiration? How about [congenial-rotary-phone](#)?

Description (optional)

☒ **Public**
Anyone on the internet can see this repository. You choose who can commit.

☐ **Private**
You choose who can see and commit to this repository.

Initialize this repository with:
Skip this step if you're importing an existing repository.

☒ **Add a README file**
This is where you can write a long description for your project. [Learn more](#).

Add .gitignore
Choose which files not to track from a list of templates. [Learn more](#).
.gitignore template: None

Choose a license
A license tells others what they can and can't do with your code. [Learn more](#).
License: None

This will set main as the default branch. Change the default name in your [settings](#).

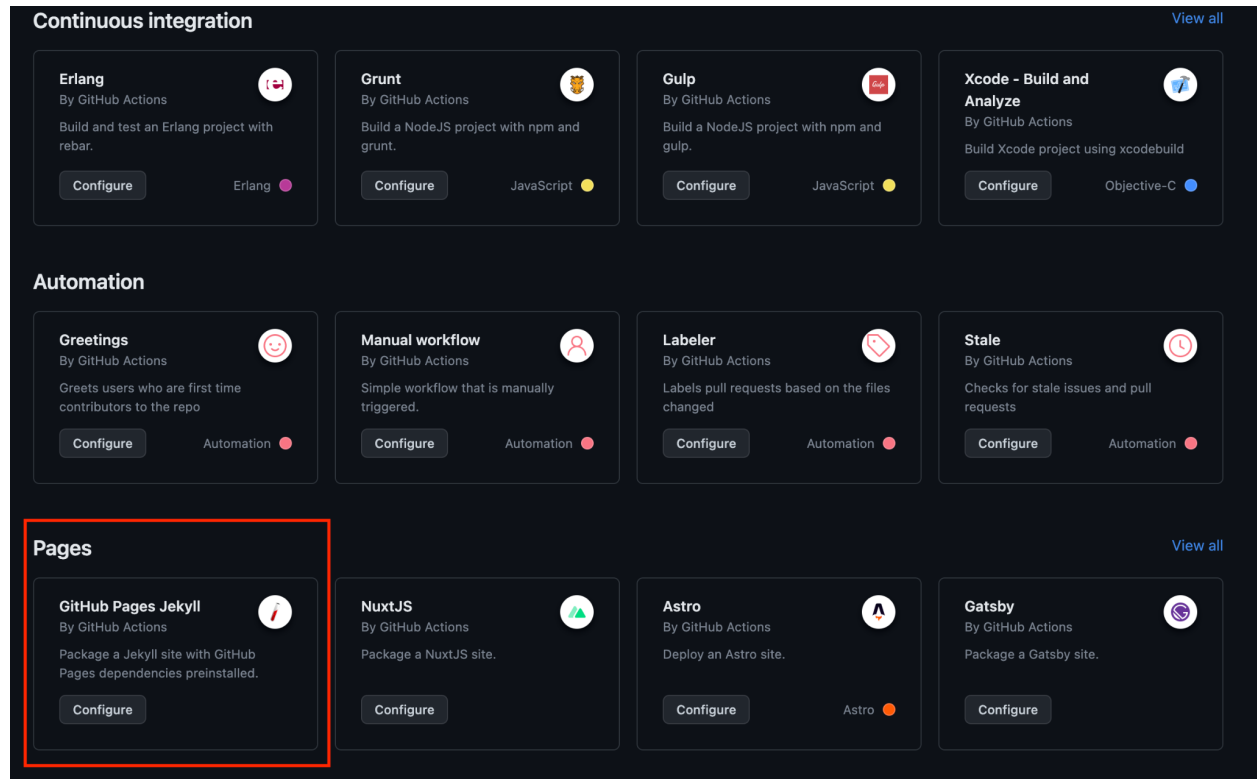

ⓘ You are creating a public repository in your personal account.

[Create repository](#)

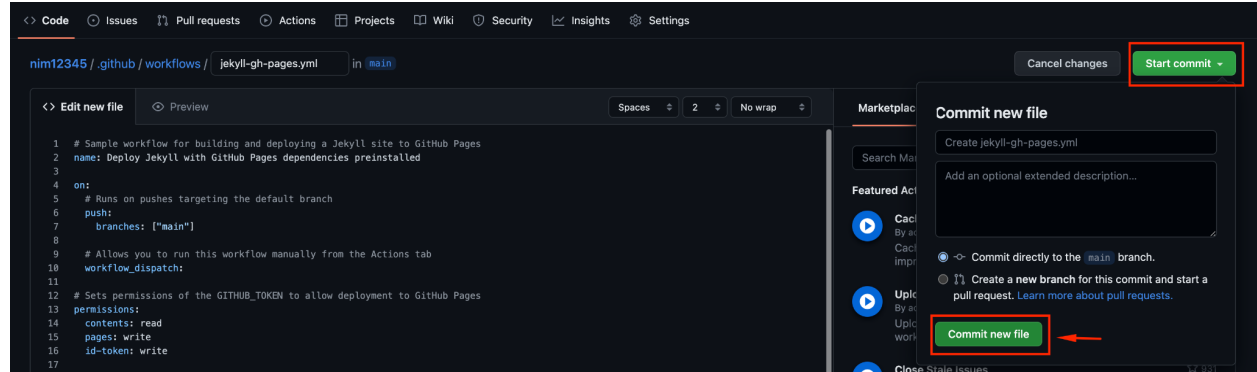

4. Pilih menu **Actions**

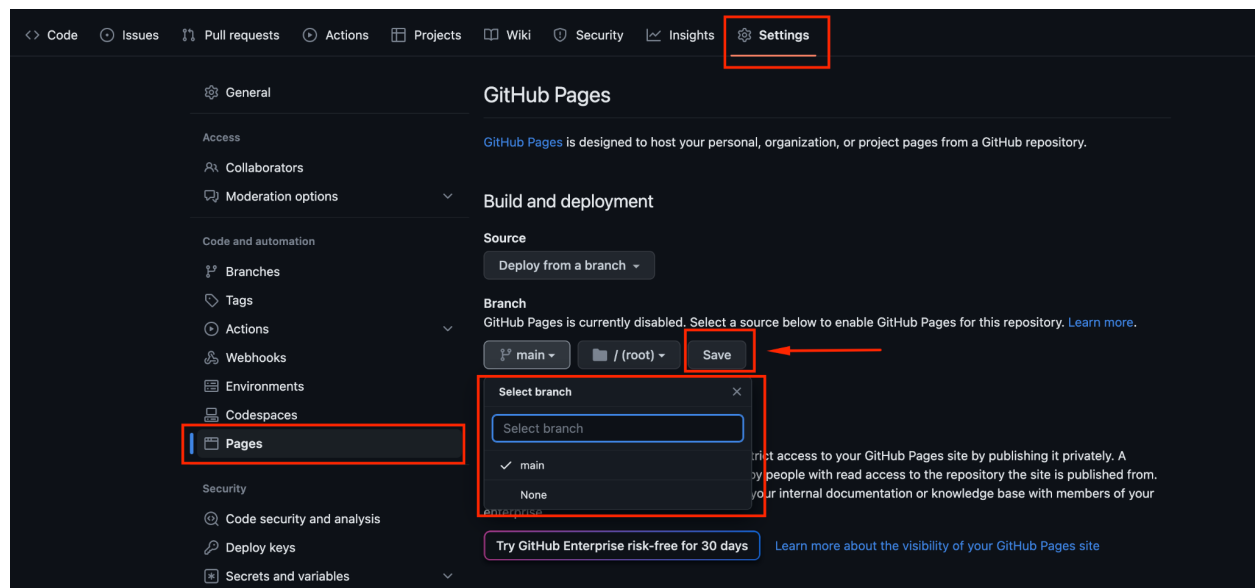

5. Pilih **Github Pages Jekyll**

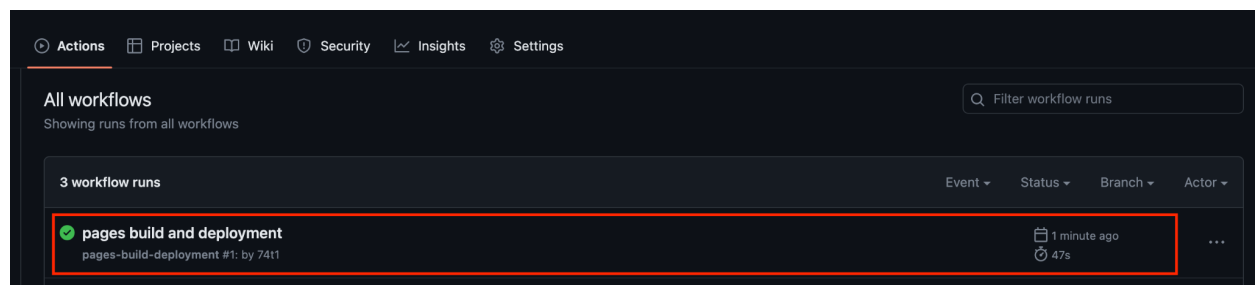

6. Klik **Star commit**, lalu klik **Commit new file**

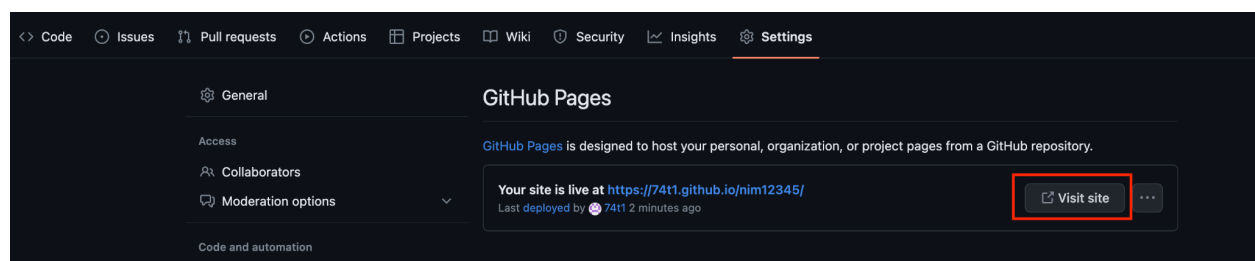

7. Klik menu **Settings - Pages**, lalu ubah Branch menjadi **main**, kemudian klik **Save**

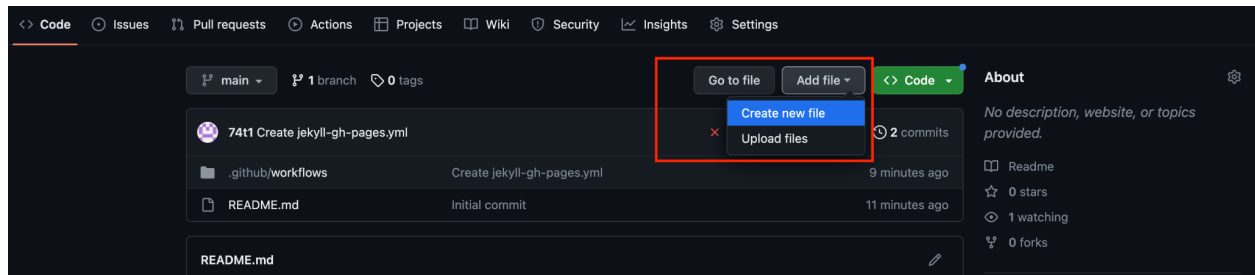

7. Klik menu **Actions**, tunggu progress selesai dan berwarna centang hijau

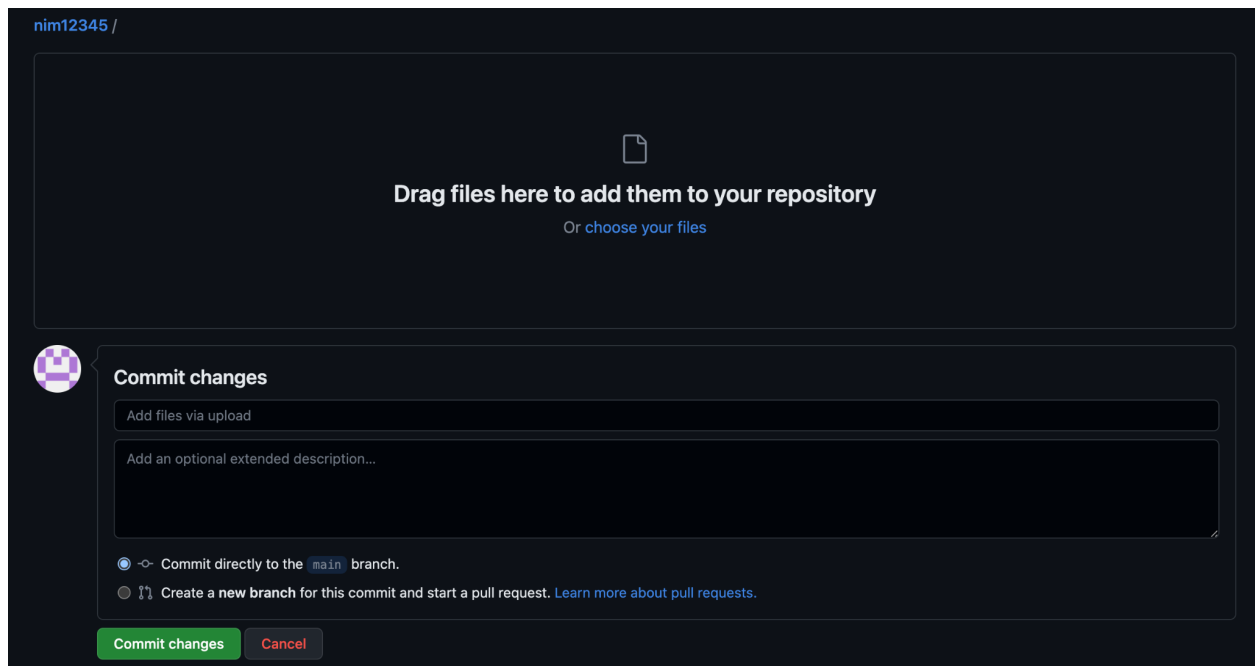

8. Kembali ke menu **Setting**, jika tampilannya seperti ini maka Github siap untuk digunakan

9. Untuk mengupload file, klik menu **Code**, lalu klik **Add file** dan pilih **Upload file**

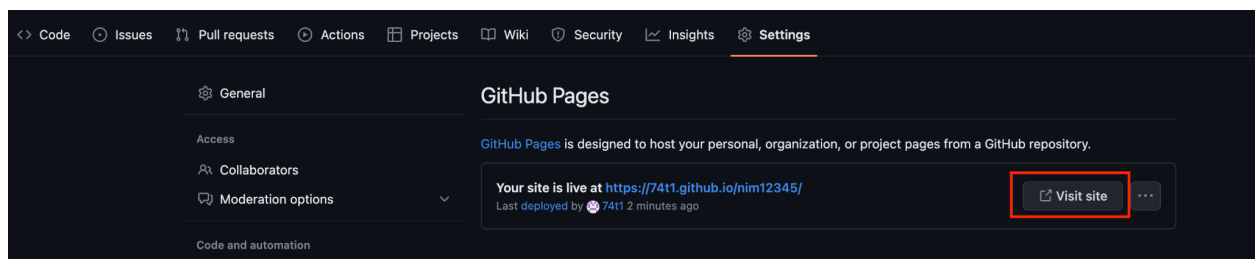

10. Drag and drop file atau klik **choose your file**, lalu klik **Commit changes**

NOTE : Selalu beri nama halaman home dengan nama **index.html** agar mudah diakses

11. Untuk mengaksesnya klik **Settings**, lalu klik **Visit site**

Happy coding 😊
